EMERGENCY BUNKER SURCHARGE EFFECTIVE JULY 2018

To Our Valued Clients,

Due to the current high fuel price environment the shipping lines have announced they will be implementing an Emergency Bunker Surcharge (EBAF) which is in addition to the existing Bunker Adjustment Factor (BAF).

As a result of this increase we unfortunately have no choice but to implement a cost recovery mechanism with immediate effect.

Our LCL export freight rate will now include a EBAF Surcharge of AUD5.00 per m3/tonne.

We thank you for your understanding and continued business.

Best Regards

Jane Rutherford
